About Supplier	CaterPrep is part of the Caterite Group and makes use of the vast distribution network, enabling customers to use the service every week. Customers can order products up to midnight for next day delivery.
About Producer	CaterPrep was formed in 2018 and currently produces over 200 different ready to use prepared lines to help busy chefs save time and money in the kitchen, without compromising on quality, specification, or freshness. The team is made up of a mixture of chefs, kitchen and manufacturing experienced members, who help us deliver the product range our customers are looking for.
Directions for use	Our potatoes are coated in a dry white solution to prevent the peeled product from browning. We work with our potato growers to measure for sugar content in the potato which allows us to modify the dry white solution concentration levels in the coating process. We recommend that before cooking the product, you rinse it in water.
Why Buy Prep?	Buying Prep saves you time, money and enhances efficiency in your kitchens. Caterprep is operational 24 hours a day to ensure that the products our customers receive are as fresh as possible.
Storage Instructions	Ideal storage temperature 0.8°C – 5.8°C.
Ingredient Sourcing	We try to source our ingredients direct from local growers or at least UK suppliers as much as possible to help reduce food miles and our carbon footprint, whilst supporting UK suppliers.
Benchmarking	We regularly cook with our freshly prepared produce range in our demonstration kitchen to see how the product holds up during the cooking process and of course most importantly, to taste the flavour and to educate our team.

Additional Information	We source all our potatoes through a local agent who has over 50 years experience of working closely with the best potato growers in the Lincolnshire area, where he has built an extensive supply network. Our agent understand our requirements for premium products and always provides us the best crops wherever possible.
