About Supplier	Caterite stock over 350 lines of fresh fruit and vegetables ranging from all the basics, to micro herbs, edible flowers, seasonal greens, salad essentials and exotics. Through our customer base we have developed and grown the range over a number of years, and now offer the most expanisive and accesible fresh proudce range in Cumbria. Over fifty percent of our business is fresh, so we understand the importance of availability, quality and price. Unlike most other wholesalers, we purchase direct from growers or farmers in the UK and Europe. We have a produce hub in Lancashire where all of our local and nationwide sourced goods from farmers and growers are collated and then trunkered daily directly to our depot. From field to Caterite and to our customers in less than 24 hours, it just does not get any fresher.
About Producer	Mouneyrac is a fourth-generation wholesaler specialising in premium apples and pears. With decades of expertise, they are dedicated to selecting exceptional fruit from the finest terroirs, ensuring outstanding quality and flavour in every harvest.
Ingredient Sourcing	We source our fresh produce direct from suppliers locally and globally, most of which are growers and exporters, this ensures fresh quality produce and better delivery. When choosing suppliers, it is not only the product quality we care about but the way they source their products, how they treat their suppliers and the environment. We always check their accreditations, assurance certificates and whether they comply with ETI (Ethical Trading Initiative).
Benchmarking	We regularly cook with our fresh produce in our demonstration kitchen to see how the product holds up during the cooking process and of course most importantly, to taste the flavour and to educate our team.
