About Supplier	Caterprep was formed in 2018 and currently produces over 200 different ready to use prepared lines to help busy chefs save time and money in the kitchen, without compromising on quality, specification or freshness. The team is made up of a mixture of chefs, kitchen and manufacturing experienced members, who help us deliver the product range our customers are looking for. We can produce 1,000 kilos of potatoes per hour, and are constantly updating our range to accommodate customer requests and the latest food trends.
About Producer	Caterprep is operational 24 hours a day to ensure that the products our customers receive are as fresh as possible. Prepared product offering is all about service, and this along with product quality is top of the agenda for the Caterprep team. Caterprep is part of the Caterite Group and makes use of the vast distribution network, enabling 1000s of customers to use the service every week. Customers can order products up to midnight for next day delivery.
Directions for use	Given the nature of the product range we recommend that once the product has been opened you wash it with water before use.
Why Buy Prep?	Today's chefs face many challenges. Kitchen areas are often small and cramped to maximise table areas. Rising labour costs puts additional pressure onto the kitchens bottom line. Buying from Caterprep saves you time and money, and enhances efficiency and morale in your kitchen. Chefs can be freed from the preparation stage and focus on creating new and innovative culinary sensations. Caterprep can also help to reduce your food waste levels and help to keep your kitchen areas clean.
Storage Instructions	Ideal storage temperature 0.8°C – 5.8°C.

Ingredient Sourcing	We try to source our ingredients from local growers or at least UK suppliers as much as possible to reduce the time products spend in transit and help reduce food miles and our carbon footprint. We also try to source from growers and exporters whenever we can to minimise the involvement of secondary wholesalers. This gives us maximum control over product quality and keeps us competitive on pricing, allowing our customers to enjoy quality seasonal products at their best value.
Benchmarking	We regularly cook with our fresh produce in our demonstration kitchen to see how the product holds up during the cooking process and of course most importantly, to taste the flavour and to educate our team.
